Cheques and postal orders should be made payable to: Woking & District A.A.

Membership cards will be dispatched after May 1.

WDAA Information

The Association's Rules and Bye-Laws are strictly enforced, for everybody's benefit. The highest regard for the fisheries and the fish is the essential qualification for all our members.

Members are expected to treat the environment with respect at all times. Those leaving litter will be sanctioned.

RIVER FISHERIES

The Woking and District Angling Association controls most of the fishing of the river Wey from Old Woking to Ripley. A river of many moods, from fast gravely runs to slow meandering stretches with deep pools, containing most species of coarse fish, and lending itself to all methods of angling, whether you enjoy stick float or pole fishing, waggler or feeder, spinning for pike, or legering for carp, it is all here. Large bags of fish are frequently taken by the pleasure angler, while quality fish of most species fall to the specimen hunter. If your interest lies in match fishing there are a few matches held throughout the season on our river fisheries where good weights are often recorded, incidentally the heaviest weight ever taken in a match from the river Wey, 75lb 8oz, which consisted of large Bream, came from our stretch of the river. We also have some small streams, which despite their size can produce some excellent winter Roach and Chub

fishing, ideal for the roving angler with a short quiver rod and a loaf of bread or a tub of worms.

Notable catches from our rivers include:

Bream over 10 lb, Barbel over 14 lb, Common Carp over 20 lb, Mirror Carp over 20 lb, Chub over 6 lb, Perch to 2 lb 12oz, Pike over 25 lb, Roach past the 2 lb barrier, Tench over 5 lb, Crucian Carp to 3 lb 14oz, and Eels to 4 lb 2oz.

STILL WATERS

(A key will be supplied to gain access to our lakes at Send and some river venues)

The Association has four lakes next to each other in Send. These lakes offer good fishing to all branches of angling, carp fishing, match fishing, pleasure fishing, we cater for all. The lakes range from seven acres down to one and a half acres and are set in superb surroundings with good facilities such as ample car parking and flush toilets. Each of these lakes represents a different type of fishery.

SANDERSONS Lake (3.2 acres) is managed as a carp/catfish water, with Commons and Mirrors to over 20 lb. and Catfish over 50lb. This water also holds Bream, Tench and Roach.

LANGMANS lake, (7.3 acres) is run as a mixed 'specimen' fishery. A Carp of over 40 lb. has recently been caught from this lake, with 30 lb. Carp coming out quite regularly. There are also Crucian Carp over 2 lb. Bream to 14 lb. Tench to 9 lb. and Pike over 20

lb. so if specimen fish are your quarry this is the lake to try.

COBBETTS Lake, (7.6 acres) can accommodate up to fifty anglers. It holds a very large head of fish of most species, and has had recent stockings of quality Crucian Carp, and Roach ranging from 8 to 12 oz. This is a water where you can fish whichever method you enjoy, legering will produce not only Bream but good bags of Roach and Crucian Carp as well, float fish the margins and you could be in for a bumper catch of Crucian Carp and Roach. There are also large Tench, Carp, and Pike resident in this lake. Cobbetts lake is used for club and open matches, the match record stands at just over 100lb but with the influx of new stock on a regular basis this record must surely be broken in the near future.

Our fourth lake **POWELLS POOL**, (1.5 acres) was excavated in 1992 and has been stocked with Tench, Crucian Carp, Roach and Rudd, and even though this is a relatively new lake good bags of fish are caught throughout the season. An ideal water for introducing youngsters to the joys of angling.

NIGHT FISHING

Night fishing is allowed on all the Association's waters. However for the lakes a supplementary Night Permit is required, either on a 'one night' or 'whole season' basis. **Night permits are limited in number and are only obtainable from the Head Bailiff as availability allows**, but before either a 'One Night' or a 'Whole Season' Night Permit is issued the Head Bailiff is required to be satisfied the

applicant is competent and responsible. Current rates for Night Permits are: One Night £10.00; Whole Season £100 for 2 lakes £150 for three lakes, contact head bailiff prior to applying for night permits. Night fishing applies from one hour after sunset to one hour before sunrise.

If you require further information on night fishing, please use the email address headed 'Enquiries on all aspects of night fishing' on the 'contacts' page of this site.
